

Schneider Electric’s individual commitments to act4nature International

INDIVIDUAL COMMITMENTS						REPORT ON THE IMPLEMENTATION OF COMMITMENTS		
Link Common Commitments	Commitment	Scope	Indicators	Measurable target <u>SMART</u>	Deadline	Status	Explanations of the status	Verification method
2 10	The group is committed to conducting impact assessments on a regular and consistent basis, for instance, every 3 or 4 years. Through this evaluation, we can identify segments of the value chain that have significant impacts on various aspects of biodiversity, enabling us to develop specific strategies to address them	SE end to end value chain	Quantify and publish, every 3 to 4 years, the assessment of impacts on biodiversity Quantification will be expressed through the average abundance of species per km ² (MSA.km ²)	N/A	2023	In progress	The last Biodiversity Footprint exercise took place in 2023, and the next one will happen in 3 to 4 years as expressed in our commitment Pages 188 and 189 of our URD: https://www.se.com/ww/en/assets/564/document/462018/2023-universal-registration-document.pdf We will be using an external methodology like we used to do with CDC Biodiversité	External audit

✓ The reports cover all commitments due by the end of 2024, including those that had already reached their deadline but were not closed in previous reports.
